

Sistem Arkwall

Freza T HW, pentru prindere in mandrina

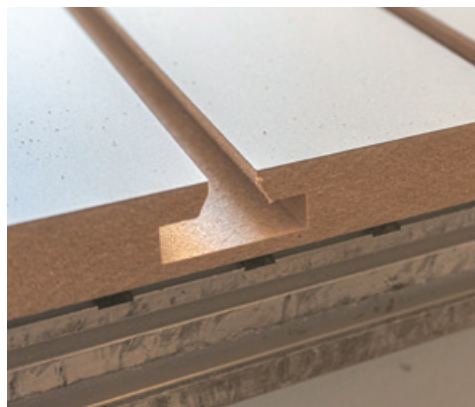

Aceasta freza este proiectata cu dimensiuni geometrice speciale pentru a crea caneluri in forma de T. Aceasta frezare permite montarea directa a carligelor, coltarelor si altor accesorii pentru agatare si constructie de mobilier, fara a necesita sine de profil suplimentare. Elementele pot fi montate direct in canelura.

Lungime totala: 48 mm
 Coada ø: 8 mm
 Material: HW
